

Enphase // **Clean energy for everyone**

With our strong commitment to a clean energy future, Enphase Energy has become a world leader by delivering smart, easy-to-use technology that connects energy generation, storage and management on one intelligent platform. We revolutionised solar with our microinverters and now produce the world's only truly integrated solar-plus-storage solution.

The world leader in solar innovation

6 TRILLION
pounds of CO₂
offset

12 MILLION
inverters
shipped

500,000
systems
installed

1240
installers in
AU & NZ

"Astonishingly compact
and modular... Potentially
ground-breaking"

—Sophie Vorrath, *RenewEconomy*

The Enphase Home Energy
Solution is "an integrated,
whole-home kit that lets
you see details about your
daily consumption on
your connected device
of choice...*Pretty nifty if
you ask me.*"

—Megan Wollerton, *CNET*

The Enphase Home Energy Solution

The smartest choice for your home

From the leader in solar innovation

Clean energy that empowers

Advanced solar and storage technology from Enphase empowers you with green energy that not only saves you money, it gives you peace of mind. Make the smartest, safest choice for your family and your home.

Smart savings

The Enphase Home Energy Solution combines solar, storage and sophisticated software. It's a truly integrated system that delivers savings by making the most of the energy you produce. It works for you, while you're busy living your life.

Smart investment

We put quality and reliability first, at every stage of our business. The result is products you can count on, for years to come and in any climate.

Smart future

Enphase products are not only ready for tomorrow's smart grid; they're powered by software that updates remotely. That means your system stays on the leading-edge: today, tomorrow or years from now. Secure a smarter future—for you and for the planet.

The Enphase smart home

SAFE, RELIABLE, FLEXIBLE

Home energy systems are a long-term investment that you want to get right. Safety and reliability are most important, and Enphase excels at both. At the same time, Enphase technology offers you the flexibility to handle whatever the future might bring—from home expansions to smart home and smart grid integration. Enphase is a name you can trust now and for years to come.

Enphase Envoy

The brains of your system

- Drives your Enlighten monitoring software
- Measures your home energy usage
- Two-way communications for ongoing system updates and remote maintenance

Enphase Microinverters

The power behind your system

- Highly efficient power conversion at each individual panel
- Rugged enclosure stands the test of time
- All-AC, low voltage power for safer solar

Enphase AC Batteries

Energy storage for your system

- Compact and very quiet
- Small and scalable so you can purchase only what you need
- Inherently more stable, safe and reliable than alternative systems
- Comes with inverter and software as standard (no hidden costs)

Enphase Enlighten

The world's most advanced solar + storage monitoring

- Award-winning software that lets you monitor system health from any web-connected device
- Quickly identify trends in efficient energy usage as well as areas for improvement.
- Proactive alerts notify you of any issues
