A Brighter Future with Sungrow Inverters & Energy Storage

With more than **23 years of experience** in the development and production of Solar technology, Sungrow is the **world's leading provider of intelligent energy solutions** across their range of residential and commercial inverters and energy storage solutions.

Why more Aussies are going with a Sungrow Solution:

- Since 2009, Sungrow Australia have a **proven track record** of protecting Australian's solar investments, having recently celebrated a **1GW Milestone** of inverter shipments into the country.
- Supply Partners, the 100% Australian owned and operated Solar Distributor is proud to be the longest running distributor for Sungrow because of their **consistency and reliability**.
- Sungrow have **MORE local employees** dedicated to supporting Australian customers and their products than any other inverter manufacturer.

THE INVERTER FOR THE WORLD'S LARGEST SOLAR PLANT
 “ Sungrow Inverters were chosen for the record 2.2 GW Solar Plant (that's equivalent to 440,000 5kW home systems). Clean power for all. ”

Why Choose Sungrow to Protect Your Investment?

THE WORLD'S MOST BANKABLE INVERTER BRAND

A Reliable Investment

Sungrow has been independently recognised as the world's most bankable inverter brand for the second year straight by the Bloomberg NEF PV Module & Inverter Report. This industry report recognises Sungrow's stability for generating financial returns, reliable technology and proven track record since 1997.

Quality That You Can Rely On

When you make the investment in a cutting edge system, it's reliability and safety are the top priority. We understand this so our rigorous design and testing standards go above and beyond to help you feel glad that you chose Sungrow when you look at your power bill for years to come.

FAILURE RATE OF **LESS THAN 0.3% GLOBALLY**

Built to Last in Australian Conditions

With Sungrow's extensive history of creating products for the Australian market, you can feel confident in your long term investment. They are installed in over 150 countries so they are tested and proven to thrive in a harsh Australian Summer or the chill of a Canadian Winter.

“As the longest running Distributor for Sungrow in Australia, we have always been impressed by the output & reliability of these inverters over the last 8+ years.”

LLIAM, SUPPLY PARTNERS

“Sungrow are committed to Australian consumers and we are proud to provide our leading products, backed by strong warranties and local support.”

JOE, SUNGROW

Local Warranty Support and Service

Sungrow is devoted to providing clean power for all and this mission is backed by a 10 year warranty and local Australian support to match. As warranties will only be honoured for as long as the company operates, it's important to choose a bankable manufacturer with decades of proven stability like Sungrow.

A Leader in Technology

Sungrow has been awarded as an EUPD Top Inverter Brand which means that they are trusted by installers around Australia. Validation and awards like this don't happen by accident. Sungrow is proud to employ the largest Research and Development Team and be the Number 1 Holder of Patents in the PV Inverter Industry.
